

EZ-JECT™ OPTIMAX™ JNR LEAK DETECTION KIT

Spectroline® leak detection

Features the OPTIMAX™ JNR economical, cordless, blue light LED leak detection flashlight. Versatile, multi-dose dye cartridges. Injector easily overcomes system pressure. Add fluorescent dye with system off or running!

Kit includes

- OPTIMAX™ JNR leak detection flashlight
- EZ-Ject™ dye injector assembly
- Hose/coupler with check valve, low-loss and purge fittings
- 2 x 15 ml EZ-Ject™ Universal/POE dye cartridges
- 3 x drip plugs for hose/coupler
- 237 ml GLO-AWAY™ dye cleaner
- Fluorescence-enhancing glasses

Part No. **JAV-1104** (OPK-50EZ/E-EU)

GLO-STICK™ COMPLETE LEAK DETECTION KIT

Spectrolin® leak detection

Most refrigerant leaks are only discovered when there's a problem with your AC&R unit. If you could stop leaks before they became an issue, wouldn't you? You can avoid expensive repairs by properly caring for your unit and putting in place a preventative maintenance plan. Stop refrigerant leaks with the GLO-STICK™ kit before they cause compressor burnout or worse: costly total system replacement.

Kit includes

- OPTIMAX™ 400 violet leak detection flashlight
- Bleed valve for attaching GLO-STICK® capsule to service hose
- Hose/coupler with check valve, low-loss and purge fittings
- 1 x 15 ml Universal/POE GS-1 GLO-STICK® dye capsule
- 2 x 15 ml Universal/POE GS-2 GLO-STICK® dye capsules
- 1 x 15 ml Universal/POE GS-3 GLO-STICK® dye capsule
- Fluorescence-enhancing glasses, dye treatment tags
- Rugged carrying case

The GLO-STICK kit contains GLO-STICKs in different concentrations to treat AC&R systems. Everything comes packed in a convenient and durable carrying case for easy transport and storage.
