

D-Tek 3[®]

REFRIGERANT GAS LEAK DETECTOR

Detects all HCFCs, HFCs, HFOs, blends (including A2Ls), ammonia & SF6.

- Ultra high sensitivity to all standard refrigerant gases, 1gm/yr
- Compatible with optional CO2 sensor
- Longest sensor life in the industry

Description	Part No.
D-Tek 3 Leak detector	JAV-1283 (721-202-G1)

Sensitivity	1 g/year sensitivity per EN14624
Detects	All HCFCs, HFCs, HFOs, blends (inc. A2Ls), ammonia, and SF6
Operating temp.	-20°C to 50°C (-4°F to 122°F)
Power	Rechargeable Lithium Ion Battery with USB charging cable
Battery life	~10 hours
Display	LED visual and audible
In the box	1 x D-TEK 3, 1 x Infrared sensor 1 x Lithium ion rechargeable battery, 2 x Spare filters, 1 x AC wall charger

Suggested spare	Part No.
TEK-Check [®] reference leak	703-080-G10
Verifies the functionality of your leak detector. R134A reference leak.5g of refrigerant. Leak rate 5-9 grams per year at 20 Deg C. Easy to store.
