

Profind

Refrigerant gas leak detector

Profind refrigerant gas leak detector

JAV-1089

The PROFIND refrigerant gas leak detector features a long life solid electrolyte sensor technology that is designed to detect all standard gases including HFC/CFC/HCFC.

Long life, stable sensor.

Unique numeric leak size indicator.

Automatic calibration and reset to ambient levels.

3 adjustable sensitivity levels.

Sensitivity	1.5 oz/yr (R-134A) 0.71 oz/yr (R-1234YF)
Life of sensor	up to 10 Years
Response time	Instantaneous
Power	4 AA Alkaline batteries
Battery life	4-6 hours continuous
Warm up time	< 20 seconds
Probe length	432 mm
Numerical display	7 segment digital display (1 to 9)
Weight	680 g
