

PVR nitrogen pressure

and vacuum manifold set

PVR nitrogen pressure and vacuum manifold set PVR SET

2-in-1 Nitrogen pressure and vacuum testing manifold. The PVR is designed for use with oxygen free nitrogen (OFN) only.

Separate valves for pressure and vacuum testing procedures.

The PVR speeds up the process of pressure and vacuum testing.

Designed to handle high pressures involved in pressure testing R410A systems.

Both gauges on the PVR are equipped with a set point indicator to monitor for pressure or vacuum losses.

The PVR has a built in vent valve for safe de-pressurisation of systems.

A 3/8" vacuum hose adaptor is included for larger systems.

DO NOT use for refrigerant charging.

Part No.	PVR SET
In the box	1x PVR Manifold 2x 2 m Stainless Steel braided, 1/4" connection hoses 1x 72" Yellow vacuum hose 1x 1/4" x 5/16" adaptor to suit R410A systems 1x 1/4" x 3/8" vacuum hose adaptor 1x Manifold hook for easy use Instruction Manual Hard plastic carry case

Nitrogen cylinder trolley NIT02

Heavy duty cylinder trolley for the safe transportation of 10 L Nitrogen cylinders.

Solid rubber wheels.

Security chain.

Part No.	NIT02
